Hello Everyone,

Before I can have it go to bid, I need to request and receive authorization to advertise the project. Various documents must be included in the request for authorization. And the one I do not have and awaiting to receive at this point is responses from utility companies in regards to their facilities. They have been notified to identify their infrastructure and conflicts. I should and hope to have responses and their summary by the end of this month. Then will process for request for authorization to advertise and award construction contract by December 2013.

Thanks,

Vahik

Vahik and Victor,

It has been some time since we have talked. I think it was at the ground breaking ceremony.

Could you please give us an update on this project? Have you sent it out for bid?

We would appreciate hearing from you.

Thanks

John
